

WHY ARE WE THE BEST OPTION TO CARE FOR YOUR CHILD?

DAILY DOSES OF
WONDER

KinderCare
LEARNING CENTERS

EXPERT-DESIGNED CURRICULUM TO HELP YOUR CHILDREN LEARN AND GROW

Our Early Foundations® curriculum is designed with specific outcomes in mind. In fact, our activities align with learning standards that are backed by experts in each content area. Our curriculum provides balance between activities that emphasize choice and more structured activities, between group and individual pursuits, and between teacher- and child-directed experiences. We also give families the tools to continue the learning at home.

EXPERIENCED TEACHERS

People are the most important part of your child's learning experience. That's why we only hire and retain the most qualified, passionate teachers and center directors. Engaging your child is what they do best – and they love it!

A SAFE, HEALTHY ENVIRONMENT

Your child's health and safety come FIRST. That's why we provide safe, modern, and developmentally appropriate facilities that are designed to foster growth and encourage learning. From meals to hand-washing, our more than 40 years of experience means every child is happy, healthy and safe.

TAKE IT OUTDOORS

Our Take It Outdoors program focuses on outdoor play and learning, exposing children to the natural world and physical activities that promote movement and the development of foundational physical skills.

FLEXIBLE SCHEDULES

Every family's schedule is different. That's why we offer partial-day, full-day and partial week plans. We also offer before- and after-school programs that focus on continued education and growth.

NUTRITIOUS MEALS

Our registered dietician combined with in-depth and continued research on children nutrition has led to a comprehensive meal plan that's good for kids, establishes good eating habits, encourages socialization and is delicious!
